MY PROFILE

I'm a final-year BSc (Hons) Computer Science undergraduate at the University of Westminster, currently at Incubate Labs shipping production-ready frontend and AI-driven features from agent evaluation systems to content generation engines. I'm deepening my expertise in agent orchestration and AI-native development, and actively seeking new opportunities to contribute to cutting-edge products and build impactful, intelligent solutions.

EXPERIENCE

Jan 2026 - Present

Incubate Labs
Battaramulla

Associate Front-End Engineer

- Co-architected and delivered a production content generation engine with LLM integration.
- Engineered a Judge Agent evaluation system with automated 4-language content export
- Promoted from intern to Associate within 6 months; awarded Innovator of the Year at iLabs 2026

July 2025 - Dec 2025

Incubate Labs
Battaramulla

Front-End Engineer Intern

- Shipped production UI across Cloud of Goods and Spordee by building UI components.
- Implemented JSON-LD schema across 20+ page types, improving structured data and AIEO.
- Built a ReactFlow-powered Knowledge Graph editor for live city entity visualisation.

Sept 2024 - Dec 2024

Sampath Bank PLC
Kandy Super Branch

Sales Intern

- Promoted digital banking solutions to walk-in customers, supporting the branch's outreach.
- Advanced client-facing communication skills in a professional banking environment.

EDUCATION

2024 - Present

Informatics Institute of Technology
affiliated with University of Westminster

BSc (Hons) in Computer Science with Industrial Placement

2021 - 2023

Good Shepherd Convent Kandy

GCE Advanced Level

- Accounting - A pass
- Business Studies - A pass
- Information & Communication Technology - A pass
- Z score - 1.6378

SKILLS & ABILITIES

Programming Languages

- TypeScript
- JavaScript
- HTML
- Java

Libraries & Frameworks

- NextJs
- ReactJs
- AI SDK
- Langchain
- TailwindCSS
- Bootstrap
- TanStack Query
- Shadcn/UI

Databases

- MongoDB
- MySQL
- PostgreSQL

SEO/AIEO (Search Engine Optimization):

- Engaged in creating Schema Markup (Schema.org) for Knowledge Graphs, validated via Google Rich Results.

Soft Skills:

- Time Management
- Attention to Detail
- Adaptability
- Communication

PROJECTS

AI-ENGINE for Cloud of Goods

2025- Present

AI-powered content, schema and image generation platform for a US rental platform.

Currently working on an AI-powered tool that generates content, schemas, and images using generative AI to automate and streamline content creation.

- **Tech Stack:** NextJs, MongoDB, TypeScript, Vercel AI SDK, Langchain, S3 bucket, AuthJs, Tailwind CSS, ReactFlow, Shadcn/UI
- **Role:** Frontend & Backend development with LLM intergration and Agentic AI Orchestration

PredicTea | <https://www.predic-tea.com>

2025

AI-powered web application

Collaborated in a team to develop an AI-powered web application to predict tea prices by analyzing historical data, weather conditions, and currency exchange rates. The system provides real-time insights to support decision-making in the tea industry.

- **Tech Stack:** MERN (MongoDB, Express.js, React, Node.js), Python with Flask, Tailwind CSS, ChartJs
- **Role:** Statistics Feature (Frontend & Backend)

SafeHaven | https://github.com/Sandyg77/Safe_Haven

2025

Interactive Property Site

Designed a property listing platform with advanced filtering and search functionality, ensuring a seamless user experience with an intuitive and minimal design.

- **Tech Stack:** React, Bootstrap, CSS, HTML, Javascript
- **Role:** Frontend Development

Ticket-Wave | https://github.com/Sandyg77/Ticket_Event_System_CLI

2024

Real-Time Ticketing Application

Developed a real-time event ticketing system with live ticket updates and seamless data management using CRUD operations.

- **Tech Stack:** React, Bootstrap, PostgreSQL, Spring Boot, Java (CLI with multi-threading)
- **Role:** Full-Stack Development

COMPETITIONS & ACHIEVEMENTS

Innovator of the year | 2026

Awarded at Cosmic Night, the annual year-end celebration of iLabs, for innovation and contributions to technology projects.

John Keells IT Pitchathon | 2025

Shortlisted and attended the Pitchathon, presenting PredicTea an AI-powered tea price prediction platform.

Cutting Edge | 2025

Showcased the PredicTea project at Cutting Edge 2025, a public exhibition organized by IIT at Temple Trees.
